COLLEGE FUNDING COACH®

**Little-Known Secrets of
Paying for College**

"On average, tuition tends to increase about 8% per year. An 8% college inflation rate means that the cost of college doubles about every nine years." (Finaid.org) Planning for these expenses has become essential. Some families have children attending college next year and others have years to plan, but the fears of tackling these monumental and rising costs are the same. The College Funding Coach® is here to help families figure out HOW to pay for it and still retire one day.

We realize there may be challenges to getting to school on time every morning. It is with this in mind that your scholar is given the grace of three tardies before they will need to go to tardy sweep. Repetitive tardies are disruptive to our classes and we ask that you allow enough time in your morning to ensure that our scholars are arriving to school on time. Arriving to school with time to spare is a great way to partner together toward our scholars' success!
